Three physicians in Stamford, Greenwich, and Sawpits, pronounced it a nervous humid pasmodic Asthma, and after prescriting for some ime to no effect, the three consulted together, and finally declared that they could do him 'no good; it would and must result in consumption, and death would ensue, and that in a very short time. The pain was excessive in all parts of his body, and the lifficulty in breathing was such as almost to cause strangulation. He was reduced to a mere skeleton, and finally gave himself up to death. 111E most sale, effectual and economical remedi for diseases of the Human Constitution, that ias ever been discovered,

These Pills are composed entirely of materials ex racted from Medical Plants, and are warrauted not to contain one particle of mercury, or any mineral substance. Dr. Kingley, the inventor of this value system derived from a long and extensive practice, as arrived to the conclusion, that the great and the unitious of the liver; or in other words an in-creased or diminished secretion of the Bile. So well is this understood, that it is common for

persons to say when they feel unwell that they are is diminished, the process of digestion is imperfectly performed, the patient becomes weak and emaciated secause nourishment contained in the food taken into the stomach is not properly extracted, and the food dent that the famous Hygean Theory, so called, tha impurity of the blood is the cause of all diseases, the subject a moment, will perceive that impurity of the blood is a secondary, not a primary complaint the effect, and not the cause of the disease." the functions of the liver are decomped; and the flow of bile increased, it is often taken up by the absorbent vessels and carried into the circulation, and becomes mingled with the blood as in Jaundice, when the patient shows it in his countenance. Now this impurity of the blood is caused by an increased flow of the bile, and to remedy it you must correct the

secretion of the liver and restore it to a healthy state. Dr. Kingley has spent much time in experimenting with different vegetable medicines; for diseases of the liver, and now offers his Universel Family Pills as the hest, most convenient and cheapest medicine that can be prepared for general use; and n offering themsto the public, he is actuated more benevolent than peculiary motives, as the price the medicine will show,

Dr. Kingley Chaters himself that his long experi menting with vegetable medicines has enabled him to discover the true and only solistitute answering all the purpose of mercurials, without any of their attendant evils. One great quality of his family Pills is, that they have the alterative principle combined with their cathartic or operative quality, so that they not only cleanse the stomach and bowels by purging, but they regulate the liver, change the morbid secretions, strengthen the digestive organs, purify the blood, invigorate the circulation, and give one and energy to the nervous system.

They are mildiand pleasant in their operation, and almost immediate conviction of their ulifity from the first dose. They can be taken with safety by persons of any age. and the feeble, the infirm, the nerrous, the delicate, are strongthened by their operabecause they clear the system of bad humors, quiet nervous irritabilities and restlessness, from hatever source, and invariably produce sound.

The Pamily Pills are an invariable remedy for jaundice, sick and nervous headache, dyspensia, astiveness, sickness of the stomach, heartburn, all bilious complaints, tevers of all kinds, and if taken at the commencement will invariably check their progress, and save the petient from a protracted and dangerous sickness. They are invaluable in nervous and hypochondripeal affections loss of appeite, and all complaints to which females alore are subject. They operate as a mild and speedy purge, and are a sufe and certain remedy for worms in
